ACADEMIC STANDARDS

Undergraduates within the School of General Studies are expected
to make reasonable progress in fulfilling degree requirements, which
includes:

• Completing the writing requirement within the first year at GS
• Initiating foreign language study no later than the second year at
  GS, and making steady progress toward this requirement in each
  subsequent semester
• Satisfactorily completing at least one core requirement each
  semester
• Declaring a major before completing 90 points toward the degree
• Making satisfactory progress each year toward the major, once
  declared
• Maintaining a semester and cumulative grade point average of at
  least 2.0

GS academic advisors help students plan their schedules so that these
requirements are met within the expected time frame.
