ACADEMIC STANDARDS

Undergraduates within the School of General Studies are expected to make reasonable progress in fulfilling degree requirements, which includes:

• Completing the writing requirement within the first year at GS
• Initiating foreign language study no later than the second year at GS, and making steady progress toward this requirement in each subsequent semester
• Satisfactorily completing at least one core requirement each semester
• Declaring a major before completing 90 points toward the degree
• Making satisfactory progress each year toward the major, once declared
• Maintaining a semester and cumulative grade point average of at least 2.0

GS academic advisors help students plan their schedules so that these requirements are met within the expected time frame.
