Undergraduates are not allowed to enroll in any seminars or studio courses.

Graduate School of Architecture, Planning, and Preservation: Lectures may be taken on a space-available basis by qualified undergraduates. Undergraduates are not allowed to enroll in any seminars or studio courses.

Graduate School of Arts & Sciences: Qualified undergraduates may take graduate-level courses in the department in which they are majoring with

In general, GS students are not allowed to register for courses at TC. Most inquiries about course registration at TC relate to

Teachers College: In general, GS students are not allowed to register for courses at TC. Most inquiries about course registration at TC relate to

Limit on Graduate and Professional Courses Counted toward the Degree

GS students are permitted only 6 points of graduate or professional studies coursework toward their GS degrees. Those 6 points may be counted in transfer credits or courses completed at Columbia, or a combination thereof. Exceptions to this rule include GS students accepted into the combined programs with Columbia’s Schools of Business, Law, Social Work, or International and Public Affairs.

Joint and Combined Programs

GS supports several dual-, combined-, and joint-degree programs with Columbia’s graduate and professional schools. Students must be specially nominated for these programs and only highly qualified
candidates will be considered. The minimum requirements for a nomination for most of these highly competitive programs include a minimum GPA of 3.5, a minimum of 60 points completed toward the degree (of which at least 30 letter-graded points must have been earned at GS), and satisfactory and relevant professional experience.

Students are normally expected to complete their core requirements and be a declared major prior to enrollment in combined programs. More information about the application process and requirements for these programs will be provided to qualified students. Following are the schools and programs to which GS may recommend highly qualified candidates for combined degrees:

- The Fu Foundation School of Engineering and Applied Science
- Mailman School of Public Health
- The School of International and Public Affairs
- The Graduate School of Arts and Sciences
- Columbia Law School

The Postbac Premed Program has arrangements with degree programs at the Institute of Human Nutrition, the Mailman School of Public Health, and the School of Professional Studies. Postbacs preparing to matriculate into the M.S. in Bioethics Program upon completion of their postbac studies are eligible to complete up to six credits of coursework in the bioethics curriculum while still in the Postbac Program; however, they will need to secure permission of the Bioethics Program administrator to do so.
