ECONOMICS - STATISTICS

Departmental Office: 1022 International Affairs Building; 212-854-3680
http://www.columbia.edu/cu/economics/

Director of Undergraduate Studies: Dr. Susan Elmes, 1006 International Affairs Building; 212-854-9124; se5@columbia.edu

Director of Departmental Honors Program: Dr. Susan Elmes, 1006 International Affairs Building; 212-854-9124; se5@columbia.edu

Economics is the study of the ways in which society allocates its scarce resources among alternative uses and the consequences of these decisions. The areas of inquiry deal with a varied range of topics such as international trade, domestic and international financial systems, labor market analysis, and the study of less developed economies. Broadly speaking, the goal of an economics major is to train students to think analytically about social issues and, as such, provide a solid foundation for not only further study and careers in economics, but also for careers in law, public service, business, and related fields.

The Economics Department offers a general economics major in addition to five interdisciplinary majors structured to suit the interests and professional goals of a heterogeneous student body. All of these programs have different specific requirements but share the common structure of core theoretical courses that provide the foundation for higher-level elective courses culminating in a senior seminar. Students are urged to carefully look through the details of each of these programs and to contact an appropriate departmental adviser to discuss their particular interests.

Advanced Placement
Tests must be taken in both microeconomics and macroeconomics, with a score of 5 on one test and at least a 4 on the other. Provided that this is achieved, the department grants 4 credits for a score of 4 and 5 on the AP Economics exam along with exemption from ECON UN1105 PRINCIPLES OF ECONOMICS.

Advising
The Department of Economics offers a variety of advising resources to provide prospective and current undergraduate majors and concentrators with the information and support needed to successfully navigate through the program. These resources are described below.

Frequently Asked Questions
Please see: http://econ.columbia.edu/frequently-asked-questions-0

As a first step, students are encouraged to visit the department’s FAQ page, which provides comprehensive information and answers to the most frequently asked questions about the departmental majors and requirements. This page also includes a section that answers specific questions of first-years, sophomores, and non-majors.

Graduate Student Advisers
For answers to the most common questions that students have about the majors, the department has graduate student advisers, who are available by e-mail at econ-advising@columbia.edu, or during weekly office hours to meet with students.

Students should direct all questions and concerns about their major to the graduate student advisers either in person or via e-mail. The graduate student advisers can discuss major requirements, scheduling, and major course selection, as well as review student checklists and discuss progress in the major. Occasionally, graduate student advisers may refer a student to someone else in the department (such as the director of undergraduate studies) or in the student’s school for additional advising.

Contact information and office hours for the graduate student advisers are posted on the Advisers page of the departmental website in the week prior to the beginning of the semester. Students considering one of the interdepartmental majors should speak to both a graduate student adviser from the Economics Department and the adviser from the other department early in the sophomore year.

Faculty Advisers
Faculty advisers are available to discuss students’ academic and career goals, both in terms of the undergraduate career and post-graduate degrees and research. Students wishing to discuss these types of substantive topics may request a faculty adviser by completing the form available on the Advisers page of the departmental website and depositing it in the mailbox of the director of undergraduate studies in 1122 International Affairs Building.

The department does its best to match students with faculty members that share similar academic interests. While faculty advisers do not discuss major requirements—that is the role of the graduate student advisers—they do provide guidance in course selection as it relates to meeting a student’s intellectual goals and interests, as well as advise on career and research options. It is recommended that students who plan on attending a Ph.D. program in economics or are interested in pursuing economics research after graduation request a faculty adviser.

On-Line Information
Students can access useful information on-line, including: a comprehensive FAQ page; requirement changes to the major and concentration; sample programs and checklists; faculty office hours, contact information and fields of specialization; adviser information; teaching assistant information; research assistant opportunities; list of tutors; and Columbia-Barnard Economics Society information.

Departmental Honors
Economics majors and economics joint majors who wish to be considered for departmental honors in economics must:

1. Have at least a 3.7 GPA in their major courses;
2. Take ECON GU4999 SENIOR HONORS THESIS WORKSHOP (a one-year course);
3. Receive at least a grade of A- in ECON GU4999 SENIOR HONORS THESIS WORKSHOP.

Students must consult and obtain the approval of the departmental undergraduate director in order to be admitted to the workshop. Please note that ECON GU4999 SENIOR HONORS THESIS WORKSHOP may be taken to fulfill the seminar requirement for the economics major and all economics joint majors. Students who wish to write a senior thesis (ECON GU4999 SENIOR HONORS THESIS WORKSHOP) must have completed the core major requirements. Normally no more than 10% of graduating majors receive departmental honors in a given academic year. Please see the Honors Prizes page on the department’s website for more information.
Undergraduate Prizes
All prize recipients are announced at the end of the spring semester each academic year.

Sanford S. Parker Prize
Established in 1980, this prize is awarded annually to a Columbia College graduating student who majored or concentrated in economics and plans on continuing his or her studies in an economics Ph.D. program within the two years following his or her graduation.

The Dean’s Prize in Economics
Awarded to General Studies students for excellence in the study of Economics.

Romine Prize
Established in 1997, this prize is awarded annually to two students (Columbia College or General Studies) majoring in economics: one for the best honors thesis paper, and the other for the best economics seminar paper.

Parker Prize for Summer Research
The department provides financial support for five Columbia College underclassmen who take unpaid summer internships that focus on research.

Guidelines for all Economics Majors, Concentrators, and Interdepartmental Majors

Checklists and Requirement
Checklists and Requirement information are available on the Department website.
Course List
Economics Core Courses
All of the core courses must be completed **no later than the spring semester** of the student's **junior year** and must be taken at Columbia. **Students who take any core course during the fall semester of their senior year must obtain written permission from the department's director of undergraduate studies.** Unless otherwise specified below, all students must complete the following core courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105</td>
<td>PRINCIPLES OF ECONOMICS</td>
</tr>
<tr>
<td>ECON UN3211</td>
<td>INTERMEDIATE MICROECONOMICS</td>
</tr>
<tr>
<td>ECON UN3213</td>
<td>INTERMEDIATE MACROECONOMICS</td>
</tr>
<tr>
<td>ECON UN3412</td>
<td>INTRODUCTION TO ECONOMETRICS</td>
</tr>
</tbody>
</table>

Prerequisites
Course prerequisites are strictly enforced. Prerequisites must be taken before the course, not after or concurrently.

Economics courses taken before the completion of any of its prerequisites, even with instructor approval, are not counted toward the major, concentration, or interdepartmental majors. Exemptions from a prerequisite requirement may only be made, in writing, by the department's director of undergraduate studies. Credits from a course taken prior to the completion of its prerequisites are not counted towards the major requirements. As a consequence, students are required to complete additional, specific courses in economics at the direction of the director of undergraduate studies.

The prerequisites for required courses are as follows:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105</td>
<td>PRINCIPLES OF ECONOMICS</td>
</tr>
<tr>
<td>MATH UN1101 CALCULUS I</td>

Grading

No course with a grade of D or lower, including calculus and statistics courses, can count toward the major, concentration, or interdepartmental majors. Economics core courses with a grade of D or F must be retaken and completed with a grade of C- or better.

Students who receive a grade of D or F in a core course are permitted to take a higher-level elective course that has that core course as a prerequisite, so long as it is taken concurrently with the retaking of that core course. For example, if a student fails ECON UN3211 INTERMEDIATE MICROECONOMICS, the student must retake it and, in the same semester, may enroll in an elective course for which it is a prerequisite, provided that all other prerequisites for the elective have been completed. The same rule applies to the required math and statistics courses. For example, if a student fails MATH UN1201 CALCULUS I, the student may retake calculus I concurrently with Intermediate Microeconomics.

Students who must retake any core economics or math course may either retake the course, or take MATH UN1205, and enroll in MATH UN1207 and MATH UN1208, or a higher level course, such as STAT UN1201 or a higher level course, such as STAT UN1201.

A grade of W is not equivalent to a grade of D or F; it does not qualify a student to retake the course concurrently with a higher level course that lists the course as a prerequisite. Students who receive a grade of W in a core course must complete the course with a grade of C- or better before taking a course that lists it as a prerequisite.

Only ECON UN1105 PRINCIPLES OF ECONOMICS may be taken for a grade of Pass/D/Fail, and the student must receive a grade of P for it to count toward the requirements for the major, concentration, or interdepartmental majors.

Economics Electives

Only those courses identified in the Economics Department listings in this Bulletin may be taken for elective credit. All 3000-level or higher electives offered by the Economics Department have ECON UN3211 INTERMEDIATE MICROECONOMICS and ECON UN3213 INTERMEDIATE MACROECONOMICS as prerequisites. However, some electives have additional prerequisites and students should ensure that all prerequisites have been completed (see the table of prerequisites printed above). Seminars do not count as electives.

Seminars

Seminars can be taken only after all of the required core courses in economics have been successfully completed. Students may not take or re-take ECON UN3211 INTERMEDIATE MICROECONOMICS, ECON UN3213 INTERMEDIATE MACROECONOMICS, or ECON UN3412 INTRODUCTION TO ECONOMETRICS concurrently with any senior seminar. Seminars do not count as electives. Each seminar is limited to sixteen students, with priority given to seniors. For ECPS GU4921 SEMINAR IN POLITICAL ECONOMICS and ECPH GU4950 ECONOMICS # PHILOSOPHY, priority is given to economics—political science and economics-philosophy majors, respectively.

For seminar registration details, read the information posted on the department's Senior Seminar Registration page: http://econ.columbia.edu/senior-seminars-registration.

Mathematics

Students must consult with the Mathematics Department for the appropriate placement in the calculus sequence. Students must complete one of the following sequences:

Select one of the following sequences:

<table>
<thead>
<tr>
<th>MATH UN1101</th>
<th>CALCULUS I and CALCULUS III</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>CALCULUS I and ACCELERATED MULTIVARIABLE CALC</td>
</tr>
<tr>
<td>MATH UN1207</td>
<td>HONORS MATHEMATICS A and HONORS MATHEMATICS B</td>
</tr>
</tbody>
</table>

In addition:

1. Students who receive a grade of D or F in MATH UN1201 CALCULUS III or MATH UN1205 must retake the course, but may enroll in ECON UN3211 INTERMEDIATE MICROECONOMICS.
2. Students who receive a grade of D or F in MATH UN1207 HONORS MATHEMATICS A may either retake the course, or take MATH UN1201 CALCULUS III or MATH UN1205, and enroll in ECON UN3211 INTERMEDIATE MICROECONOMICS concurrently.

Statistics

Unless otherwise specified below, all students must take STAT UN1201 CALC-BASED INTRO TO STATISTICS, or a higher level course, such as STAT GU4204 STATISTICAL INFERENCE, or STAT GU4001.

Barnard Courses

A limited number of Barnard economics electives may count toward the major, concentration, and interdepartmental majors. Students should pay careful attention to the limit of Barnard electives indicated in their program requirements. Please see the Transfer Credit section below for information on the number of Barnard electives that may be taken to fulfill major requirements. In addition, students may receive credit for the major, concentration, and interdepartmental majors only for those Barnard economics courses listed in this Bulletin. However, students may not receive credit for two courses whose content overlaps. Barnard and Columbia economics electives with overlapping content include but are not limited to:

ECON BC3029 EMPIRICAL APPROACHES DEVLPMT
- ECON GU4321 and ECONOMIC DEVELOPMENT
Students should always first consult with econ-advising to confirm that the Barnard elective they wish to take does not overlap with a Columbia elective that they have already taken or plan to take. Students may not take the Barnard core economics, math, statistics, or seminar courses for credit towards the completion of major requirements.

**School of Professional Studies Courses**

The Department of Economics does not accept any of the courses offered through the School of Professional Studies for credit towards the economics major, concentration, or interdepartmental majors with the exception of the courses offered by the Economics Department during the summer session at Columbia.

**Other Department and School Courses**

Please note that with the exception of the above Barnard courses and the specific courses listed below for the financial economics major, no other courses offered through the different departments and schools at Columbia count toward the economics majors or concentration.

**Transfer Credits**

Students are required to take a minimum number of courses in the Columbia Economics Department. For all majors and interdepartmental majors, students must complete a minimum of five lecture courses in the Columbia department. Students may fulfill their remaining requirements for economics lecture courses through AP (or IB or GCE) credits, Barnard electives, transfer courses, and study abroad courses (the latter two are subject to the approval of the Economics Department). The following table summarizes the new rules:

<table>
<thead>
<tr>
<th>Program</th>
<th>Number of required economics lecture courses</th>
<th>Minimum number which must be taken in the department</th>
<th>Maximum number of outside allowed</th>
</tr>
</thead>
<tbody>
<tr>
<td>Economics major</td>
<td>9</td>
<td>5</td>
<td>4</td>
</tr>
<tr>
<td>Financial economics</td>
<td>8</td>
<td>5</td>
<td>3</td>
</tr>
<tr>
<td>Economics-mathematics</td>
<td>7</td>
<td>5</td>
<td>2</td>
</tr>
<tr>
<td>Economics-political science</td>
<td>7</td>
<td>5</td>
<td>2</td>
</tr>
<tr>
<td>Economics-statistics</td>
<td>7</td>
<td>5</td>
<td>2</td>
</tr>
</tbody>
</table>

1. **Lecture courses** do not include seminars, which must be taken in the Columbia Economics Department. The lecture course counts are counts of economics courses only and do not include math, statistics, or courses in other departments;

2. At least two of the three 3000-level economics core courses must be taken in the department and no corresponding Barnard courses are accepted. ECON UN3025 FINANCIAL ECONOMICS and ECON UN3265 MONEY AND BANKING are counted as departmental courses regardless of the instructor;

3. **Outside courses** include AP (or IB or GCE) credits, transfer credits, Barnard 2000- and 3000-level elective courses and transfer credits from other universities. In the case where two or more courses taken outside of Columbia are used as the equivalent of ECON UN1105 PRINCIPLES OF ECONOMICS, those courses are counted as one transfer course.

Approval of transfer credits to fulfill economics requirements must be obtained in writing from the Department of Economics (see the [departmental website](#) or speak with your advising dean for information regarding applications for transfer credit). Approval is granted only for courses that are considered to be comparable to those offered at Columbia.

**Summer courses** taken at other institutions must be approved in writing by the department's transfer credit adviser before the course is taken. The department does not accept transfer credits for any 3000 level core courses taken during a summer session outside of Columbia University. Summer courses taken from the department of economics at Columbia University do not need approval.

**Guidelines and instructions** on how to request transfer credit approval can be found in the Transfer Credit Information page of the [departmental website](#).

### Major in Economics

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors (p. 2) above.

The economics major requires a minimum of 35 points in economics, 6 points in mathematics, and 3 points in statistics, for a total of at least 44 points as follows:

**Economics Core Courses**

- All economics core courses

**Mathematics**

- Select a mathematics sequence

**Statistics**

- Select a statistics course

**Economics Electives**

- Select at least five electives, of which no more than one may be taken at the 2000-level (including Barnard courses)

**Economics Seminar**

- Select one economics seminar course
Concentration in Economics
Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors (p. 2) above.

The economics concentration requires a minimum of 25 points in economics, 6 points in mathematics, and 3 points in statistics, for a total of at least 34 points as follows:

**Economics Core Courses**
- All economics core courses

**Mathematics**
- Select a mathematics sequence

**Statistics**
- Select a statistics course

**Economics Electives**
- Select at least three electives, of which no more than one may be taken at the 2000-level (including Barnard courses)

Major in Financial Economics
Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors (p. 2) above.

The Department of Economics offers the major in financial economics, which provides an academic framework to explore the role of financial markets and intermediaries in the allocation (and mis-allocation) of capital. Among the topics studied in financial economics are financial markets, banks and other financial intermediaries, asset valuation, portfolio allocation, regulation and corporate governance.

The financial economics major requires 26 points in economics, 6 points in mathematics, 3 points in statistics, 3 points in business, and 12 points from a list of selected courses for a total minimum of 50 points as follows:

**Economics Core Courses**
- All economics core courses

**Finance Core Courses**
- ECON UN3025 FINANCIAL ECONOMICS
- ECON GU4280 CORPORATE FINANCE
- BUSI UN3013 FINANCIAL ACCOUNTING

*NOTE: The department considers BUSI UN3013 and IEOR E2261 as overlapping courses. Students who take both courses shall be credited with one course only. Financial economics majors who are also in the Business Management concentration program (CNBUMG) must take an additional elective from either the financial economics prescribed elective list (below) or from the CNBUMG prescribed list.

**Mathematics**
- Select a mathematics sequence

**Statistics**
- Select a statistics course

**Electives**
- Select four of the following, of which two must be from the Columbia or Barnard economics departments, or equivalent economics transfer credits:
  - ECON BC3014 Entrepreneurship
  - ECON BC3017 Economics of Business Organization
  - ECON UN3265 MONEY AND BANKING

**Seminar**

The seminar must be chosen from a list of seminars eligible for the financial economics major. The department indicates which seminars are eligible for the major on the Senior Seminars page of the departmental website.

Students must have completed at least one of ECON UN3025 or ECON GU4280 prior to taking their senior seminar.

* Students must complete the finance core no later than fall of their senior year.
Major in Economics-Mathematics

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors (p. 2) above.

The major in economics and mathematics provides students with a grounding in economic theory comparable to that provided by the general economics major and exposes students to rigorous and extensive training in mathematics. The program is recommended for any student planning to do graduate work in economics.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Mathematics has an assigned adviser with whom students may consult on mathematics requirements. The economics adviser can only advise on economics requirements; the mathematics adviser can only advise on mathematics requirements.

The economics-mathematics major requires a total of 52 or 56 points (depending on mathematics sequence): 29 points in economics and 23-27 points in mathematics and statistics as follows:

Economics Core Courses
- All economics core courses

Economics Electives
- Select three electives at the 3000-level or above

Mathematics
- Select one of the following sequences:
  - MATH UN1101 and MATH UN1102
  - MATH UN1201 and MATH UN2010
  - MATH UN1201 and MATH UN2010
  - MATH UN1207 and MATH UN1208

The major in economics and mathematics provides students with a grounding in economic theory comparable to that provided by the general economics major and exposes students to rigorous and extensive training in mathematics. The program is recommended for any student planning to do graduate work in economics.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Mathematics has an assigned adviser with whom students may consult on mathematics requirements. The economics adviser can only advise on economics requirements; the mathematics adviser can only advise on mathematics requirements.

The economics-mathematics major requires a total of 52 or 56 points (depending on mathematics sequence): 29 points in economics and 23-27 points in mathematics and statistics as follows:

Economics Core Courses
- All economics core courses

Economics Electives
- Select three electives at the 3000-level or above

Mathematics
- Select one of the following sequences:
  - MATH UN1101 and MATH UN1102
  - MATH UN1201 and MATH UN2010
  - MATH UN1207 and MATH UN1208

Note: Students who take MATH UN1205 may not receive credit for both MATH UN1201 and MATH UN1202.

Analysis requirement:
- MATH UN2500

Select three of the following:
- MATH UN1202
- MATH UN2030

Any mathematics course at the 3000-level or above

Note: Students who take MATH UN1205 may not receive credit for MATH UN1202.

Statistics
- Select one of the following sequences:
  - STAT GU4001
  - STAT GU4203

PROBABILITY THEORY and STATISTICAL INFERENCE

Economics Seminar
- Select an economics seminar

NOTE:

1. Students who fulfill the statistics requirement with STAT GU4203 and STAT GU4204, may count STAT GU4203 or STAT GU4204 as one of the three required mathematics electives.
2. Students who choose the one year sequence (STAT GU4203/STAT GU4204), must complete the year long sequence prior to taking ECON UN3412. Students receive elective credit for the probability course.

Major in Economics-Philosophy

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors (p. 2) above.

Economics-philosophy is an interdisciplinary major that introduces students to basic methodologies of economics and philosophy and stresses areas of particular concern to both, e.g. rationality and decision making, justice and efficiency, freedom and collective choice, logic of empirical theories and testing. Many issues are dealt with historically. Classic texts of Plato, Kant, Mill, Marx, and Smith are reviewed.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Philosophy has an assigned adviser with whom students may consult on philosophy requirements. The economics adviser can only advise on economics requirements; the philosophy adviser can only advise on philosophy requirements.

The economics-philosophy major requires a total minimum of 54 points: 25 points in economics, 16 points in philosophy, 6 points in mathematics, 3 points in statistics, and 4 points in the interdisciplinary seminar as follows:

Economics Core Courses
- ECON UN1105
- ECON UN3211
- ECON UN3213
- ECON UN3412

PRINCIPLES OF ECONOMICS
INTERMEDIATE MICROECONOMICS
INTERMEDIATE MACROECONOMICS
INTRODUCTION TO ECONOMETRICS

Mathematics
- Select a mathematics sequence

Statistics
- Select a statistics course

Economics Electives
- Three Electives are required; two must be selected from the below list, and the remaining elective may be any economics elective at the 3000-level or above.

ECON UN4020
ECON UN3901
ECON UN4211
ECON UN4213
ECON UN4228
ECON UN4230
ECON UN4235
ECON UN4250
ECON UN4301
ECON UN4321

ECON OF UNCERTAINTY # INFORMTN
ECONOMICS OF EDUCATION
ADVANCED MICROECONOMICS
ADVANCED MACROECONOMICS
Urban Economics
ECONOMICS OF NEW YORK CITY
HISTORICAL FOUNDATIONS OF MODERN ECONOMICS: Adam Smith to J M Keynes
THEORETICAL FOUNDTS-POLIT ECON
MARKET DESIGN
ECONOMIC GROWTH # DEVELOPMNT I
ECONOMIC DEVELOPMENT

or ECON BC3041
or ECON BC3029

EMPIRICAL APPROACHES DEVLPMT
The political science courses are grouped into four areas, i.e. subfields: (1) American Politics, (2) Comparative Politics, (3) International Relations, and (4) Political Theory. For the political science part of the major, students are required to select one area as a major subfield and one as a minor subfield. The corresponding introductory courses in both subfields must be taken, plus two electives in the major subfield, and one in the minor subfield.

**Economics Core Courses**
- ECON UN1105 PRINCIPLES OF ECONOMICS
- ECON UN3211 INTERMEDIATE MICROECONOMICS
- ECON UN3213 INTERMEDIATE MACROECONOMICS
- ECON GU4370 POLITICAL ECONOMY

**Mathematics**
Select a mathematics sequence

**Statistical Methods**
- STAT UN1201 CALC-BASED INTRO TO STATISTICS

Select one of the following:
- ECON UN3412 INTRODUCTION TO ECONOMETRICS
- POLS GU4712 PRINC OF QUANT POL RESEARCH 2

**Economics Electives**
Select two electives (6 points) at the 3000-level or above

**Political Science Courses**
Students must choose a Primary Subfield and a Secondary Subfield to study. The subfields are as follows: American Politics (AP), Comparative Politics (CP), International Relations (IR), and Political Theory (PT).

Primary Subfield: Minimum three courses, one of which must be the subfield’s introductory course.

Secondary Subfield: Minimum two courses, one of which must be the subfield’s introductory course.

**Seminars**
Students must take the following two seminars:
- ECPS GU4921 SEMINAR IN POLITICAL ECONOMICS
- and a Political Science Department seminar, in the student’s Primary Subfield. Please select one of the following: *

- POLS UN3911 SEMINAR IN POLITICAL THEORY
- or POLS UN3912 SEMINAR IN POLITICAL THEORY
- POLS UN3921 AMERICAN POLITICS SEMINAR
- or POLS UN3922 AMERICAN POLITICS SEMINAR
- POLS UN3951 COMPARATIVE POLITICS SEMINAR
- or POLS UN3952 Seminar in Comparative Politics
- POLS UN3961 INTERNATIONAL POLITICS SEMINAR
- or POLS UN3962 INTERNATIONAL POLITICS SEMINAR

- Students who wish to count toward the political science seminar requirement a course that is not in the above list of approved seminars must obtain permission from the political science Director of Undergraduate Studies. Barnard colloquia can count for seminar credit only with the written permission of the Director of Undergraduate Studies. Note that admission to Barnard colloquia is by application to the Barnard political science department only.

---

**Major in Economics–Political Science**

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors (p. 2) above.

Political economy is an interdisciplinary major that introduces students to the methodologies of economics and political science and stresses areas of particular concern to both. This program is particularly beneficial to students planning to do graduate work in schools of public policy and international affairs.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Political Science has an assigned adviser with whom students may consult on political science requirements. The economics adviser can only advise on economics requirements; the political science adviser can only advise on political science requirements.

The economics–political science major requires a total of 59 points: 22 points in economics, 17 points in political science, 6 points in mathematics, 6 points in statistical methods, 4 points in a political science seminar, and 4 points in the interdisciplinary seminar as follows.

---

**Major in Economics–Statistics**

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors (p. 2) above.

The major in economics-statistics provides students with a grounding in economic theory comparable to that provided by the general economics
major, but also exposes students to a significantly more rigorous and extensive statistics training than is provided by the general major. This program is recommended for students with strong quantitative skills and for those contemplating graduate studies in economics.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Statistics has an assigned adviser with whom students may consult on statistics requirements. The economics adviser can only advise on economics requirements; the statistics adviser can only advise on statistics requirements.

The economics-statistics major requires a total of 59 points: 29 in economics, 15 points in statistics, 12 points in mathematics, 3 points in computer science as follows:

### Economics Core Courses

- **All economics core courses**
- **Economics Electives**
- **Select three electives at the 3000-level or above**
- **Mathematics**
  - Select one of the following sequences:
  - MATH UN1101: CALCULUS I
  - MATH UN1102: CALCULUS II
  - MATH UN1201: CALCULUS III
  - MATH UN2010: LINEAR ALGEBRA
- **MATH UN1101**: CALCULUS I
  - MATH UN1102: CALCULUS II
  - MATH UN1205: Accelerated Multivariable
  - MATH UN2010: LINEAR ALGEBRA
- **MATH UN1207**: HONORS MATHEMATICS A
  - MATH UN1208: HONORS MATHEMATICS B
- **Statistics**
  - STAT UN1201: CALC-BASED INTRO TO STATISTICS
  - STAT GU4203: PROBABILITY THEORY
  - STAT GU4204: STATISTICAL INFERENCE
  - STAT GU4205: LINEAR REGRESSION MODELS
  - One elective in statistics from among courses numbered STAT GU 4206 through GU 4266.
- **Computer Science**
  - Select one of the following:
  - COMS W1004: Introduction to Computer Science and Programming in Java
  - COMS W1005: Introduction to Computer Science and Programming in MATLAB
  - COMS W1007: Honors Introduction to Computer Science
  - ENGI E1006: INTRO TO COMP FOR ENG/APP SCI
  - STAT UN2102: Applied Statistical Computing
- **Economics Seminar**
  - ECON GU4918: SEMINAR IN ECONOMETRICS

### Economics Core Courses

#### ECON UN1105 PRINCIPLES OF ECONOMICS. 4.00 points.
Corequisites: ECON UN1155

Prerequisites: ECON UN1105 and MATH UN1101 and (MATH UN1201 or ECON UN3211 INTERMEDIATE MICROECONOMICS. 4.00 points.

Prerequisites: ECON UN1105 and MATH UN1101 and (MATH UN1201 or MATH UN1207) The determination of the relative prices of goods and factors of production and the allocation of resources

- **Spring 2023: ECON UN1105**
  - Course Number: 001/12196
  - Times/Location: M W 8:40am - 9:55am
  - Instructor: Sunil Gulati
  - Points: 4.00
  - Enrollment: 119/210

- **ECON UN1202**: M W 11:40am - 12:55pm
  - Instructor: Sunil Gulati
  - Points: 4.00
  - Enrollment: 175/210

- **ECON UN1201**: T Th 2:40pm - 3:55pm
  - Instructor: Brendan O’Flaherty
  - Points: 4.00
  - Enrollment: 149/189

- **Fall 2023: ECON UN1105**
  - Course Number: 001/11136
  - Times/Location: M W 8:40am - 9:55am
  - Instructor: Sunil Gulati
  - Points: 4.00
  - Enrollment: 217/220

- **ECON UN1202**: T Th 4:10pm - 5:25pm
  - Instructor: Waseem Noor
  - Points: 4.00
  - Enrollment: 184/189

- **ECON UN1201**: T Th 8:40am - 9:55am
  - Instructor: Miguel Urquiola
  - Points: 4.00
  - Enrollment: 200/200

#### ECON UN3211 INTERMEDIATE MICROECONOMICS. 4.00 points.

Prerequisites: ECON UN1105 and MATH UN1101 and (MATH UN1201 or MATH UN1207) The determination of the relative prices of goods and factors of production and the allocation of resources

- **Spring 2023: ECON UN3211**
  - Course Number: 001/12127
  - Times/Location: M W 10:10am - 11:25am
  - Instructor: Elliot Lipowski
  - Points: 4.00
  - Enrollment: 35/96

- **ECON UN3212**: M W 4:10pm - 5:25pm
  - Instructor: Ingrid Nyman
  - Points: 4.00
  - Enrollment: 98/96

- **ECON UN3213**: T Th 11:40am - 12:55pm
  - Instructor: Isaac Bjork
  - Points: 4.00
  - Enrollment: 96/96

- **ECON UN3214**: T Th 2:40pm - 3:55pm
  - Instructor: Caterina Musatti
  - Points: 4.00
  - Enrollment: 72/96

- **Fall 2023: ECON UN3211**
  - Course Number: 001/11141
  - Times/Location: M W 1:10pm - 2:25pm
  - Instructor: Susan Elmes
  - Points: 4.00
  - Enrollment: 84/110

- **ECON UN3212**: T Th 11:40am - 12:55pm
  - Instructor: Caterina Musatti
  - Points: 4.00
  - Enrollment: 94/110

- **ECON UN3213**: T Th 6:10pm - 7:25pm
  - Instructor: Qi Ge
  - Points: 4.00
  - Enrollment: 86/96

### Students who declared before Spring 2014: The requirements for this program were modified in 2014. Students who declared this program before Spring 2014 should contact the director of undergraduate studies for the department in order to confirm their options for major requirements.
ECON UN3213 INTERMEDIATE MACROECONOMICS. 4.00 points.
Prerequisites: (MATH UN1101 or MATH UN1207) and ECON UN1105 or the equivalent.
Corequisites: MATH UN1201
Prerequisites: (MATH UN1101 or MATH UN1207) and ECON UN1105 or the equivalent. Corequisites: MATH UN1201 This course covers the determination of output, employment, inflation and interest rates. Topics include economic growth, business cycles, monetary and fiscal policy, consumption and savings and national income accounting.

Spring 2023: ECON UN3213
Course Number | Section/Call Number | Times/Location | Instructor | Points | Enrollment

Economics Electives

ECON UN2105 THE AMERICAN ECONOMY. 3.00 points.
Prerequisites: ECON UN1105
Prerequisites: ECON UN1105 The course surveys issues of interest in the American economy, including economic measurement, well-being and income distribution, business cycles and recession, the labor and housing markets, saving and wealth, fiscal policy, banking and finance, and topics in central banking. We study historical issues, institutions, measurement, current performance and recent research.

Spring 2023: ECON UN2105
Course Number | Section/Call Number | Times/Location | Instructor | Points | Enrollment
--- | --- | --- | --- | --- | ---
ECON 2105 | 001/11730 | T Th 11:40am - 12:55pm 517 Hamilton Hall | Claudia Halbac | 3.00 | 81/86

ECON UN2257 THE GLOBAL ECONOMY. 3.00 points.
Prerequisites: ECON UN1105
Prerequisites: ECON UN1105 Covers five areas within the general field of international economics: (i) microeconomic issues of why countries trade, how the gains from trade are distributed, and protectionism; (ii) macroeconomic issues such as exchange rates, balance of payments and open economy macroeconomic adjustment, (iii) the role of international institutions (World Bank, IMF, etc); (iv) economic development and (v) economies in transition.

ECON 2257 | 001/12125 | T Th 10:10am - 11:25am 501 Schermerhorn Hall | Waseem Noor | 3.00 | 101/189

ECON UN3025 FINANCIAL ECONOMICS. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201
Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201 Institutional nature and economic function of financial markets. Emphasis on both domestic and international markets (debt, stock, foreign exchange, eurobond, eurocurrency, futures, options, and others). Principles of security pricing and portfolio management; the Capital Asset Pricing Model and the Efficient Markets Hypothesis.

ECON UN3901 ECONOMICS OF EDUCATION. 3.00 points.
Prerequisites: (econ un3211 and econ un3213 and econ un3412)
Prerequisites: (econ un3211 and econ un3213 and econ un3412) Course objective: This course has two objectives: (1) To develop students’ skills in research and writing. Specifically, participants will work on: formulating a research question, placing it in the context of an existing literature and/or policy area, and using economic and econometric tools to address it in writing. Specifically, in the first part of the class, readings, problem sets, and a midterm exam will build skills in these areas. In the second part, students will come up with a research question, and address it in a research proposal/report. While all the applications will be on the economics of education, these skills will be useful in students’ subsequent careers, regardless of the area of economics they focus on. (2) To provide an introduction to key issues in the economics of education. Specifically, education is a significant industry every person entering this course will have already spent years in this industry as a customer, as a worker, as an input, or all of the above. The course will address questions like: What does economics have to say about how this industry is organized and what determines its output? Why do individuals invest in education? What determines the behavior, productivity, and reputation of rms in the industry? What role should government and public policy (if any) play in its operation?

ECON UN3952 macroeconomicECON GU4228 Urban Economics. 3 points.
Prerequisites: ECON UN3211 and ECON UN3213 and ECON UN3412
Coverage: ECON UN3981 Applied Econometrics. 3 points.
Prerequisites: ECON UN3211 and ECON UN3213 and ECON UN3412
The objective of this course is to develop students’ research skills and to prepare students to tackle a senior thesis project.

Towards this goal, this course will review or introduce the most widely used econometric techniques for empirical research. These include multiple regressions, probit and logit models, instrumental variables methods, panel data methods, regression discontinuity designs. This course will also introduce some time series methods such as vector autoregressive process, cointegration analysis, financial time series, and modeling of volatilities. Students will need to practice these methods with a computer software package (R or STATA) and with actual economic data sets.

ECON GU4020 ECON OF UNCERTAINTY # INFOMTN. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201
Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201 Topics include behavior uncertainty, expected utility hypothesis, insurance, portfolio choice, principle agent problems, screening and signaling, and information theories of financial intermediation.

Fall 2023: ECON GU4020
Course Number Section/Call Number Times/Location Instructor Points Enrollment
ECON 4020 001/11156 T Th 4:10pm - 5:25pm 214 Pupin Laboratories Pierre-Antoine Chiappori 3.00 19/50

ECON GU4211 ADVANCED MICROECONOMICS. 4.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and MATH UN2010
Students must register for required discussion section.
Corequisites: MATH UN2500, MATH GU4061
Prerequisites: ECON UN3211 and ECON UN3213 and MATH UN2010
Students must register for required discussion section. Corequisites: MATH UN2500 or MATH GU4061. This course provides a rigorous introduction to microeconomics. Topics will vary with the instructor but will include consumer theory, producer theory, general equilibrium and welfare, social choice theory, game theory and information economics. This course is strongly recommended for students considering graduate work in economics. Discussion section required.

Spring 2023: ECON GU4211
Course Number Section/Call Number Times/Location Instructor Points Enrollment
ECON 4211 001/12142 M W 1:10pm - 2:25pm 417 Mathematics Building Susan Elmes 4.00 19/54

ECON GU4213 ADVANCED MACROECONOMICS. 4.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and ECON UN3412 and MATH UN2010 Required discussion section ECON GU4214
Prerequisites: ECON UN3211 and ECON UN3213 and ECON UN3412 and MATH UN2010 Required discussion section ECON GU4214 An introduction to the dynamic models used in the study of modern macroeconomics. Applications of the models will include theoretical issues such as optimal lifetime consumption decisions and policy issues such as inflation targeting. This course is strongly recommended for students considering graduate work in economics.

Fall 2023: ECON GU4213

ECON GU4230 ECONOMICS OF NEW YORK CITY. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201

This course takes New York as our laboratory. Economics is about individual choice subject to constraints and the ways that choices sum up to something often much more than the parts. The fundamental feature of any city is the combination of those forces that bring people together and those that push them apart. Thus both physical and social space will be central to our discussions. The underlying theoretical and empirical analysis will touch on spatial aspects of urban economics, regional, and even international economics. We will aim to see these features in New York City taken as a whole, as well as in specific neighborhoods of the city. We will match these theoretical and empirical analyses with readings that reflect close observation of specific subjects. The close observation is meant to inspire you to probe deeply into a topic in order that the tools and approaches of economics may illuminate these issues in a fresh way.
ECON GU4325 ECONOMIC DEVELOPMENT OF JAPAN. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213
The growth and structural changes of the post-World War II economy; its historical roots; interactions with cultural, social, and political institutions; economic relations with the rest of the world

ECON GU4370 POLITICAL ECONOMY. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201 or POLS 4710 for those who declared prior to Spring 2014.
Starting from the micro level study of political behavior, we will build up to analyze the internal workings of institutions and ultimately macro level economic and political outcomes. During the course we will cover the following topics • Limits and potential of markets • Public goods provision • Voting • Redistribution

ECON GU4400 LABOR ECONOMICS. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213
The labor force and labor markets, educational and man power training, unions and collective bargaining, mobility and immobility, sex and race discrimination, unemployment.

ECON GU4412 ADVANCED ECONOMETRICS. 4.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and ECON UN3412 and MATH UN2010 Students must register for required discussion section.
The linear regression model will be presented in matrix form and basic asymptotic theory will be introduced. The course will also introduce students to basic time series methods for forecasting and analyzing economic data. Students will be expected to apply the tools to real data

ECON GU4413 Econometrics of Time Series and Forecasting. 3 points.
Prerequisites: ECON UN3211 and ECON UN3213 and ECON UN3412
Corequisites: MATH UN2010
This course focuses on the application of econometric methods to time series data; such data is common in the testing of macro and financial economics models. It will focus on the application of these methods to data problems in macro and finance.
ECON GU4600 INTERNATIONAL TRADE. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213
Prerequisites: ECON UN3211 and ECON UN3213
The theory of international trade, comparative advantage and the factor endowments of trade, analysis of the theory and practice of commercial policy, economic integration. International mobility of capital and labor; the North-South debate

Spring 2023: ECON GU4600
Course Number  Section/Call Number Times/Location Instructor Points Enrollment
ECON 4600  001/12154  T Th 2:40pm - 3:55pm 602 Hamilton Hall Waseem Noor  3.00  30/86

Fall 2023: ECON GU4500
Course Number  Section/Call Number Times/Location Instructor Points Enrollment
ECON 4500  001/11171  T Th 2:40pm - 3:55pm 141 Uris Hall Waseem Noor  3.00  46/63

ECON GU4505 INTERNATIONAL MACROECONOMICS. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213
Prerequisites: ECON UN3211 and ECON UN3213
Econ GU4505 is an elective in the economics major. The course develops models for the analysis of the determinants of international capital flows, trade imbalances, and exchange rates. The models are then used as the basis for the discussion of topics such as Global Imbalances, Uncertainty and the Current Account, The Global Saving Glut, Purchasing Power Parity, Sudden Stops, Real Exchange Rates and Productivity, Covered Interest Rate Parity, Uncovered Interest Rate Parity, Borrowing Externalities and Optimal Capital Controls, Overborrowing, Macroeconomic Adjustment under Flexible and Fixed Exchange Rates, Twin Deficits, and Balance of Payment Crises

ECON GU4615 LAW AND ECONOMICS. 3.00 points.
Spring 2023: ECON GU4615
Course Number  Section/Call Number Times/Location Instructor Points Enrollment
ECON 4615  001/14220  T Th 11:40am - 12:55pm 717 Hamilton Hall Andrew Abere  3.00  78/86

ECON GU4625 Economics of the Environment. 3 points.
Not offered during 2023-2024 academic year.
Prerequisites: ECON UN3211 and UN3213.
Microeconomics is used to study who has an incentive to protect the environment. Government’s possible and actual role in protecting the environment is explored. How do technological change, economic development, and free trade affect the environment? Emphasis on hypothesis testing and quantitative analysis of real-world policy issues.

ECON GU4630 Climate Finance. 3.00 points.
In lieu of the failure of legislatures to pass comprehensive carbon taxes, there is growing pressure on the financial system to address the risks of global warming. One set of pressures is to account for the heightened physical risks due to extreme weather events and potential climate tipping points. Another set of pressures are to find approaches to incentivize accommodations to meet the goals set out in the Paris Treaty of 2015. These approaches include (1) mandates or restrictions to only hold companies with decarbonization plans, (2) development of negative emissions technologies such as direct-air capture and (3) promotion of natural capital markets that can be used to offset carbon emissions. Moreover, financial markets also provide crucial information on expectations and plans of economic agents regarding climate change. This course will cover both models and empirical methodologies that are necessary to assess the role of the financial system in addressing global warming

Spring 2023: ECON GU4630
Course Number  Section/Call Number Times/Location Instructor Points Enrollment
ECON 4630  001/12155  M W 1:10pm - 2:25pm 516 Hamilton Hall Jose Scheinkman, Harrison Hong

ECON GU4700 FINANCIAL CRISES. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201
This course uses economic theory and empirical evidence to study the causes of financial crises and the effectiveness of policy responses to these crises. Particular attention will be given to some of the major economic and financial crises in the past century and to the crisis that began in August 2007.

ECON GU4710 FINANCE AND THE REAL ECONOMY. 3.00 points.
Prerequisites: (Econ UN3211) and (ECON UN3213) and (STAT UN1201)
This course uses economic theory and empirical evidence to study the links between financial markets and the real economy. We will consider questions such as: What is the welfare role of finance? How do financial markets affect consumers and firms? How do shocks to the financial system transmit to the real economy? How do financial markets impact inequality?

Spring 2023: ECON GU4710

ECON GU4750 GLOBALIZATION # ITS RISKS. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213
The world is being transformed by dramatic increases in flows of people, goods and services across nations. Globalization has the potential for enormous gains but is also associated to serious risks. The gains are related to international commerce where the industrial countries dominate, while the risks involve the global environment, poverty and the satisfaction of basic needs that affect in great measure the developing nations. Both are linked to a historical division of the world into the North and the South-the industrial and the developing nations. Key to future evolution are (1) the creation of new markets that trade privately produced public goods, such as knowledge and greenhouse gas emissions, as in the Kyoto Protocol; (2) the updating of the Breton Woods Institutions, including the creation of a Knowledge Bank and an International Bank for Environmental Settlements
ECON GU4840 BEHAVIORAL ECONOMICS. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213
Within economics, the standard model of behavior is that of a perfectly rational, self-interested utility maximizer with unlimited cognitive resources. In many cases, this provides a good approximation to the types of behavior that economists are interested in. However, over the past 30 years, experimental and behavioral economists have documented ways in which the standard model is not just wrong, but is wrong in ways that are important for economic outcomes. Understanding these behaviors, and their implications, is one of the most exciting areas of current economic inquiry. The aim of this course is to provide a grounding in the main areas of study within behavioral economics, including temptation and self-control, fairness and reciprocity, reference dependence, bounded rationality and choice under risk and uncertainty. For each area we will study three things: 1. The evidence that indicates that the standard economic model is missing some important behavior 2. The models that have been developed to capture these behaviors 3. Applications of these models to (for example) finance, labor and development economics. As well as the standard lectures, homework assignments, exams and so on, you will be asked to participate in economic experiments, the data from which will be used to illustrate some of the principles in the course. There will also be a certain small degree of classroom ‘flipping’, with a portion of many lectures given over to group problem solving. Finally, an integral part of the course will be a research proposal that you must complete by the end of the course, outlining a novel piece of research that you would be interested in doing.

ECON GU4850 COGNITIVE MECH # ECON BEHAVIOR. 4.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201
Standard economic theory seeks to explain human behavior (especially in economic settings, such as markets) in terms of rational choice, which means that the choices that are made can be predicted on the basis of what would best serve some coherent objective, under an objectively correct understanding of the predictable consequences of alternative actions. Observed behavior often seems difficult to reconcile with a strong form of this theory, even if incentives clearly have some influence on behavior, and the course will discuss empirical evidence (both from laboratory experiments and observations in the field) for some well-established anomalies. But beyond simply cataloguing anomalies for the standard theory, the course will consider the extent to which departures from a strong version of rational choice theory can be understood as reflecting cognitive processes that are also evident in other domains such as sensory perception; examples from visual perception will receive particular attention. And in addition to describing what is known about how the underlying mechanisms work (something that is understood in more detail in sensory contexts than in the case of value-based decision making), the course will consider the extent to which such mechanisms — while suboptimal from a normative standpoint that treats perfect knowledge of one’s situation as costless and automatic — might actually represent efficient uses of the limited information and bounded information-processing resources available to actual people (or other organisms). Thus the course will consider both ways in which the realism of economic analysis may be improved by taking into account cognitive processes, and ways in which understanding of cognitive processes might be advanced by considering the economic problem of efficient use of limited (cognitive) resources.
ECON GU4860 Behavioral Finance. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and ECON UN3412
Neoclassical finance theory seeks to explain financial market valuations
and fluctuations in terms of investors having rational expectations and
being able to trade without costs. Under these assumptions, markets
are efficient in that stocks and other assets are always priced just
right. The efficient markets hypothesis (EMH) has had an enormous
influence over the past 50 years on the financial industry, from pricing
to financial innovations, and on policy makers, from how markets are
regulated to how monetary policy is set. But there was very little in
prevailing EMH models to suggest the instabilities associated with
the Financial Crisis of 2008 and indeed with earlier crises in financial
market history. This course seeks to develop a set of tools to build a
more robust model of financial markets that can account for a wider
range of outcomes. It is based on an ongoing research agenda loosely
dubbed “Behavioral Finance”, which seeks to incorporate more realistic
assumptions concerning human rationality and market imperfections
into finance models. Broadly, we show in this course that limitations of
human rationality can lead to bubbles and busts such as the Internet
Bubble of the mid-1990s and the Housing Bubble of the mid-2000s; that
imperfections of markets — such as the difficulty of short-selling assets
— can cause financial markets to undergo sudden and unpredictable
crashes; and that agency problems or the problems of institutions can
create instabilities in the financial system as recently occurred during
the 2008 Financial Crisis. These instabilities in turn can have feedback
effects to the performance of the real economy in the form of corporate
investments.

Economics Senior Seminars
ECON GU4911 Microeconomics Seminar. 4.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and ECON UN3412
Registration information is posted on the department’s Seminar Sign-up
webpage.
Prerequisites: ECON UN3211 and ECON UN3213 and ECON UN3412
Selected topics in microeconomics

ECPS GU4921 SEMINAR IN POLITICAL ECONOMICS. 4.00 points.
Priority is given to economics-political science majors who are in their senior year, but any available space is open to students who have taken the elective course in political economy.
Prerequisites: ECON W3211, W3213, W3412 (or POLS 4711), W4370.
Registration information is posted on the department’s Seminar Sign-up webpage.
Prerequisites: ECON W3211, W3213, W3412 (or POLS 4711), W4370.
Registration information is posted on the departments Seminar Sign-up webpage. Required for majors in the joint program between political science and economics. Provides a forum in which students can integrate the economics and political science approach to political economy. The theoretical tools learned in political economy are applied: the analysis of a historical episode and the empirical relation between income distribution and politics on one side and growth on the other

ECON GU4995 RESEARCH COURSE. 1.00 point.
Prerequisites: ECON UN3211 and ECON UN3213 and ECON UN3412 and the director of the departmental honors program's permission. Students must have a minimum GPA of 3.7 in all required major courses, including calculus and statistics, prior to enrollment. Prerequisites: ECON UN3211 and ECON UN3213 and ECON UN3412 and the director of the departmental honors programs permission. Students must have a minimum GPA of 3.7 in all required major courses, including calculus and statistics, prior to enrollment. The honors thesis seminar is a year-long course, beginning in the fall semester and ending in the spring semester. Students who have been approved to enter the workshop will be registered for both semesters by the department during the first two weeks of classes; 3 points are earned per semester. This workshop may only be taken by students applying for departmental honors, and it also fulfills the economics seminar requirement for the economics major and all joint majors. Students must see the director during mid-semester registration in the spring to discuss their proposed thesis topic, at which time they will be matched with appropriate faculty who will act as their thesis adviser. Students will meet their adviser over the course of the year at mutually agreed upon times. A rough draft of the thesis will be due during the first week of February in the spring semester, and the final draft will be due three weeks before the last day of classes. Please note that for those joint majors that require two seminars, one in economics and one in the other discipline (i.e. Political Science), the economics senior honors thesis seminar only fulfills the economics seminar requirement.
